

## Standalone House on a big Plot with 2 Bedrooms and 2 Bathrooms

5,990,000 THB

This 2 bedroom, 2 bathroom house impresses with its quiet location and an impressive view of the surrounding mountains. The house and the large plot offer a lot of room for individualization, as the house itself is not yet completely finished, and the garden has not yet been laid out.

The roof, which has been very well insulated from the inside, stands in contrast to many other houses far beyond the house walls, this in turn prevents direct sunlight into the windows and keeps the house, even on hot days, already cooler without air conditioning.

Here you could realize yourself.

In the house is missing in principle only the air conditioning, in the kitchen would have to be supplemented some appliances, and it needs a staircase to the attic, which was developed in the complete walkable and loadable to be able to use it as a storage room.

Since the house is located on one side of the property and not built directly into the middle, many options are open here, such as a pool of an unusual size or shape or an additional guest house to accommodate family or friends.

An additional advantage is that the house is not located in a resort, so there are no community costs.
